

Floor Heating Products

OLGASSYS

Products

01

Floor Heating Pipes

- 1.1. Olgassys Evoh PEX-a Pipe
- 1.2. Olgassys Evoh PE-RT Pipe

02

Collectors and Electronic Control Products

- 2.1. Stainless steel collector sets with flow indicator
- 2.2. Stainless steel collector sets without flow indicator
- 2.3. Main control unit
- 2.4. Room thermostats Olgassys
- 2.5. Actuators

03

Accessories

- 3.1. Ball valve set
- 3.2. Automatic air vent and drainage valve set
- 3.3. Pipe connection fitting
- 3.4. Insulation plate
- 3.5. Edge insulation tape
- 3.6. Stabilising hook
- 3.7. Curved elbow
- 3.8. Collector cabinet

Floor Heating Systems Quality and Comfort

olgassys.net

In floor heating systems with our high quality product portfolio and experienced staff; consultancy, project design, product supply services.

01

Floor Heating Pipes

1.1. Olgassys Evoh PEX-a Pipe

Made in Europe, high quality, EVOH oxygen barrier PEX-a floor heating pipes
Pipe diameter 16 mm
Pipe wall thickness 2 mm
Max operating temperature 95 C
Max working pressure 10 bar

1.2. Olgassys Evoh PE-RT Pipe

Made in Europe, high quality, EVOH oxygen barrier PE-RT floor heating pipes
Pipe diameter 16 mm
Pipe wall thickness 2 mm
Max operating temperature 70 C
Max working pressure 7 bar

02

Collectors and Electronic Control Products

2.1. Stainless Steel Collector Sets with Flow Indicator

Stainless steel collector sets (outgoing, return collectors and clamp set) with flow indicator and thermal actuator suitable for room-based control.

2.2. Stainless Steel Collector Sets without Flow Indicator

Stainless steel collector sets (outgoing, return collectors and clamp set) without flow indicator and thermal actuator suitable for room-based control.

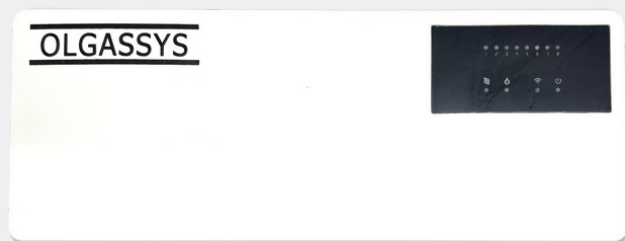

* Thermostat coupled ball valves to collector inlets and automatic air discharge and drainage end pieces to collector ends are available as accessories.

2.3. Main Control Unit

Features

- Suitable for wired control
- Pump protection mode
- Led indicator
- 8 outputs - 8 zone control
- Wireless control optional

2.4. Room Thermostats Olgassys

Tailor-made solutions and innovative technologies with room thermostats compatible with floor heating systems.

- Digital and mechanical room thermostat options
- Wired and wireless thermostats
- Remote access via smartphone applications optional

2.5. Actuators

Thermal Actuator Features

- 230 V and 24 V options normally closed
- Manual opening for installation IP54
- 4 mm stroke
- 120 sec. position time (230 V) 100 N power
- 60 °C maximum ambient temperature

03 Accessories

3.1. Ball Valve Set

3.2. Automatic Air Vent and Drainage Valve Set

3.3. Pipe Connection Fitting

3.4. Insulation Plate

3.5. Edge Insulation Tape

3.6. Stabilising Hook

3.7. Curved Elbow

3.8. Collector Cabinet
